WORKSHOPS and LECTURES

We've always got exciting workshops in the works—check our schedule often or LIKE US on Facebook to find out more! We also take special requests...is there a topic you'd like us to present about? Toss us your idea, and we'll ponder it!

Woof! What is the Dog Saying?

Is a yawn always just a yawn? Why does a dog shake off even when it's not wet? Why is a growl a good thing? Is a tail wag always friendly? This is our popular, long-running dog communication and safety lecture—a multi-media extravaganza of fun where the audience also gets to test their "dog reading" skills. In an hour, we'll demystify dog communication, reveal some common dog-human misunderstandings, and explore how we can all live safely and happily together. *(Shhhh ...this is for humans only...dogs must be left at home!)*

We were blown away by the turn out that came to listen to her speak and by the information she so easily communicated to the crowd...and understood! Deb has a special way with words and communicating her opinion on dog behavior to people. I found myself walking away with more knowledge and understanding than I had with so many past seminars. We will definitely be inviting her back to share more of her knowledge with our community!

—Humane Society of Chittenden County

Our hope by having Deb come and speak to us was that we would all gain a better understanding of what our canine customers are experiencing when they shop with us and how to better assess their body language. Deb exceeded our expectations! We were blown away with the amount of information Deb was able to deliver in just an hour and a half. Deb did a wonderful job of relating to her audience--getting us engaged and keeping us engaged. Not only is Deb a wealth of information, she is a phenomenal presenter--one of the best we've had.
